The Netvoyager Neterm thin client desktops are the ideal method to deliver applications on-demand using server-based computing.

The Neterm CE1010 is a simple, feature rich and plug-n-play thin client desktop packing 300Mhz of processing power, all in a device significantly smaller than a traditional PC.

The Neterm CE1010 includes remote session support for Microsoft and Citrix, wireless support, security and manageability all powered by the latest Microsoft Windows CE.NET operating system.

The Neterm CE1010 offers expansion using two USB ports and legacy port support. The Neterm, like all other Netvoyager thin client desktops are remotely managed using the Netvoyager InFocus enterprise management tool.

A perfect desktop solution for those requiring a complete centralised system. Netvoyager thin clients are a more efficient way to deliver Windows® applications, specifically to function oriented and general office users were lower cost of ownership, simplicity, manageability and security are paramount.

Netvoyager thin clients are ideal for healthcare, call centre, manufacturing, and education environments.

Whether its for a remote site or local use, the Netvoyager Neterm CE1010 plugs straight into your network and to your server-based computing infrastructure without any requirement for significant configuration.

A complete industry standard plug-n-play desktop solution which is user-friendly, requires no application installations and is virus protected.
